About the FMS Advanced Systems Group

The FMS Advanced Systems Group (ASG) is a division of FMS, Inc. FMS is an award-winning, small business delivering proven database and analytic software to a wide range of customers for over 30 years.

FMS's products and applications are widely used by 90 of the Fortune 100 companies, within every US Federal Government department, and organizations in over 100 countries.

FMS, Inc. 34th Year Founded 1986

ASG has a rich history of proven solutions to complex data and analysis problems. From Bayesian theory to Social Network Analysis to Temporal Analysis and Geospatial Visualization, we adapt cutting-edge technologies to solve complex problems. These solutions bridge the gap between technology and usability in innovative ways. The results-driven approach embraced by ASG enables clients to use their data in a collaborative environment that improves operational efficiency.

FMS is an In-Q-Tel portfolio company, a Microsoft Certified Partner, and was named to the Software Development Times list of the World's Top 100 Software Innovators and Leaders.
